

Amendments to the Claims

Claim 1 (Currently amended): A liquid composition for controlling moss comprising:

- (a) a nitrogen containing fertilizer,
- (b) a surfactant or wetting agent, and
- (c) a metal containing salt, and
- (d) an acidic pH adjusting agent.

Claim 2 (Original): The composition of claim 1, wherein the metal containing salt is a metal sulfate.

Claim 3 (Original): The composition of claim 2, wherein the metal sulfate is selected from the group consisting of copper sulfate, zinc sulfate, and iron sulfate.

Claim 4 (Original): The composition of claim 1, wherein the wetting agent is a non-ionic surfactant.

Claim 5 (Cancelled)

Claim 6 (Currently amended): The composition of claim ~~5~~1, wherein said pH adjusting agent is a mineral or organic acid.

Claim 7 (Original): The composition of claim 1, wherein the fertilizer comprises isobutylenediurea.

Claim 8 (Currently amended): An aqueous composition for spraying on lawns and putting greens to control moss growth comprising:

- (a) a nitrogen containing fertilizer,
- (b) a non-ionic surfactant wetting agent,
- (c) an iron sulfate, and
- (d) an acid, and
- (e) an acidic pH adjusting agent.

Claim 9 (Cancelled)

Claim 10 (Currently amended): The composition of claim 9-8 wherein the amount of the acid in the composition is sufficient to bring the pH of the applied liquid to within the range of from 2 to 6.

Claim 11 (Currently amended): An aqueous composition for spraying on lawns and putting greens to control moss growth comprising:

- (a) a slow-release isobutylenediurea fertilizer,
- (b) a non-ionic surfactant as wetting agent,
- (c) ferrous sulfate, and
- (d) acetic acid, and
- (e) an acidic pH adjusting agent.
